Mobility

- 🚂 City of Brussels ◦ Lille area ◦ Paris
- 🏡 Europe

Volunteering

- 🚲 Association Droit au Vélo
  2017–2021 Bicycle promotion
- 🚲 Association Les Jantes du Nord
  2017–2019 Bicycle workshop
- 🐧 Association Trustonme
  2002–2016 GNU/Linux and open source software promotion

Consultant experience

- Since 2023 Clivia bleu (freelance)

  Taking advantage of my experience, I chose to target existing Java projects. I want to offer another way than rewrite-&-switch, to start with things as they stand, especially with complex/critical legacies having issues.
- 2014–2023 Clivia bleu (freelance)

  Project guidance throughout technical steps involving varied skills with flexibility. I proved my ability to develop contextual expertise based on the needs.

  Role examples: DBA / Performance leader / Tech lead
- 2010–2014 Ubik Ingénierie

  Developer and Lead developer of Java builds, including redesigns/rewrites with legacy analysis, from requirements and architecture to deployment

  Highlight: profiling and performance optimization
- 2008–2010 Gfi Informatique (Inetum)

  Implementation of Java banking/telecoms projects, mostly in back-office service centers,
  from intern developer to application manager

Teacher experience

- 2015–2019 ULCO University — “EIL” (Calais)

  Teaching architecture basics and SOA to 4th-year university students in groups of 23 to 53 learners

  Scope: syllabus definition, lecture and practical work
- 2013–2017 University of Lille — “IUT A”

  Teaching simple data structures to 2nd-year university students in small groups (18–27 learners)

Education

- 2008 → 2-year degree in computing
  University of Lille — “IUT A”
- 2006 → A-Level High School Diploma
  Hyères (French Riviera)
